

RESEARCH APPLICATION FORM

Uganda Wildlife Authority
PO Box 3530, Kampala,
Uganda
Tel +256-41-355114, 355111,
355118

The application has to be submitted in duplicate to UWA's Monitoring and Research Unit. These forms should be submitted at least 2 months before the intended starting date of the research together with a non-refundable application fee. Please attach a detailed proposal, a copy of your CV, an introductory letter from the institution of affiliation and 2 passport size photos

All researchers are required to submit reports to UWA at specified intervals plus a final report at the end of the research. All Researchers Except Ugandan MSc and undergraduate have to pay a monthly research fee and a report/security deposit at UWA headquarters. This will be given back on submission of the final report. Please note that researchers are required by law to get clearance from the Uganda National Council for Science and Technology after approval from UWA. For details on fees and instructions on how to complete the research application form please refer to the attached information sheet

INSTRUCTIONS FOR COMPLETING IN THE UWA RESEARCH APPLICATION FORM

Key words: A set of words designed to convey the subject and methods of the proposed research.

Name: Write the family/surname in capital letters and other names in small letters, e.g. MUHWEZI Onesimus.

Qualifications: e.g. Bachelor of Education, B.Sc. (Forestry), M. Sc. (Envt.), Ph.D. in environmental planning.

Counterpart: Name of person you intend to work with.

Co-worker: Name of the person(s) assisting you (working for you).

Overall goal: Describes why the research objective is being pursued, i.e. long-term objective to which your research is contributing. *Example: To reduce conflict between Queen Elizabeth National Park (QENP), recovering elephant population and the growing human population neighbouring the park.*

Objective (Purpose): Describes what the research is to accomplish, i.e. what you plan to achieve at the end of the research. *Example: To determine the variables that influence elephant/human interactions around QENP.*

Outputs (Results): Describe what the research is to achieve. *Examples: Human demographic trends in neighbouring areas identified. Seasonal habitat and natural resource patterns in relation to elephant requirements determined.*

Activities: Describe how the results are to be attained, i.e. actions to be undertaken in order to produce the outputs. *Examples: Determine past & present human population dynamics. Record foraging behaviour of elephants.*

Application relevance: Describes how the planned research project contributes to the needs of the protected area management and UWA.

Budget: Please specify amount and currency.

Specimen collection: Specify the type and numbers if applicable

Equipment: List of equipment to be used in carrying out the research. Do not include consumables, e.g. pencils, notebooks, etc.
